

S &T CONTEMP CO., LTD.

COMPANY PROFILE 2018

Company Background

S&T Contemp Company Limited (S&T) is a service oriented manufacturer and provider of professional service technicians in several markets since 1987. Our factory is located in Sampran district, 33 kilometers from the Bangkok central business district, and our registered main business port facility. Satellite offices are located at strategic maritime service centers, e.g. Bangkok Port (PAT), Laem Chabang (LCB) ICD, Lat Krabang (LKB) ICD, Maptapud, Route 331 CY Chacheongsao, Klang Sub-factory and several private depots.

Our professional staffs are trained in their various functions including overseas training such as that conducted by Carrier-Transcold (United Technologies) for container refrigeration equipment and electrical controller as well as provided by Daikin, Thermo-King, and Star Cool including Klinge Corp. for refrigerated tank container and custom-built reefer container.

Main offices are fully equipped with micro-computer systems, software, internet and networks for speed, accuracy, and maintenance of customer records. For example, a complete service record is maintained for every marine container Cared for by S&T including data retrieval and digital photos as evidence for customer record. We have trained personnel serving throughout the region.

Engineering construction design service with expertise and experience to develop and construct various type of mobile, modular, self-contained cabin, container house, Joint-office cabin complex, kiosks, SWG container, Offshore LER container, and custom- built containers to meet customers' requirement.

Other Products are different types of mobile cabin, portable toilets, guard booth/house, and functional tents for events.

about us

Company's Philosophy

“ To support our customers with quality products and services in a demand driven market providing practical and reasonable solutions to customer needs and satisfaction. “

Vision & Strategies

- To acquire a high reputation and quality standard in regional products and services with a focus on serving market demanded niches.
- Give high priority to satisfying our customer needs in the most economical fashion.
- Place high importance on maintaining and developing long-term customer relationships.
- Uphold work principles aimed at open, honest communication with customers and within our company.

about us

Objectives

- To develop and deliver company products and services of the highest quality.
- To provide tailored quality products and services directed to fulfill customer needs.
- To be a leader in helping customers satisfy their needs under adverse conditions
- To concentrate on core business activities maintaining clear focus on our scope of work.

Company Profile

Facts and Company Data

- Established since 1987
- Registered Capital 10 Million Baht
 - Office location is near central business district of Bangkok and Bangkok Port
- Factory is located in Sampran district, Nakorn Pathom,
 - 33 KM. S.W. of Bangkok with 10,000 sq.m. (107,500 sq.ft.)
 - concrete marshalling and storage yard including 2,000 sq.m. (21,500 sq.ft.) high overhead factory under roof.
- Satellite offices are located at strategic maritime service centers, e.g. Bangkok Port ICD (PAT), Laem Chabang (LCB) ICD, Lat Krabang (LKB) ICD and several private depots.
- Staff of 200 employees serving throughout of region
- Container yard for a stock of 20' and 40' refrigerated marine containers
 - (Reefers), and dry van container, 200 TEUs
- Facilities and equipment – well equipped facilities for
 - construction, fabrication, and refurbishment, e.g. air-blast room and paint room
 - continuous machine for forming prefabricated sandwich panel with insulation,
 - hydraulic press-brake for metal sheet forming (400 tons), welding and cutting equipment,
 - gantry crane, truck with 25 tons hydraulic crane, forklifts, material handling equipment, workshop tools & apparatus, measuring instruments, etc.

Company Profile

AIR-BLAST ROOM

PRESS BRAKE ,500 TONS

AUTO PREFAB. SANDWICH PANEL

Business Missions

- * Sales, rental and leasing of refurbished refrigerated container.
 - o for domestic storage and transportation of perishables, agriculture produces and frozen products, including general purpose cargo container.
- * **Reefer Specialist** in refrigerated container maintenance & repair
 - o and refurbishment of container body and refrigeration equipment.
- * **Air-blast abrasive surface cleaning** with copper slag and surface paint
 - o coating of container, structural steel, and all configuration of steel and equipment.
- * **Reefer operation - 24-Hrs Service** such as pre-trip inspection, monitoring, survey, on-board plug-in, M&R, machinery and box repair.
- * **Authorized Warranty Service Center and spare parts**
 - o supplier for machinery producers, especially for **CarrierTransicold**, as well as agent for Daikin, ThermoKing, Starcool and MHI.

MOBILECARE
GOING THE EXTRA MILE

- * **Container Specialists** – Manufacturing of mobile cabins, special containers for various purposes including sales, rental and leasing of mobile cabins. engineering and construction design service with expertise and experience to develop and construct various design to suit customer's needs with all steel frame construction.
- * **Manufacturing of mobile office cabins, mobile toilet cabin and container, guard house and custom-built container** such as off-shore container, switching gear container, telecommunication container, etc.
- * **Manufacturing of modular housing, container home, and container office complex.**
- * **Site construction** – Engineering and construction design service to develop and construct practical and economical buildings ranging from a small light office or industrial unit and large project at destination with prefabricated insulated sandwich panel to meet customer's demand.
- * **Manufacturing of insulated prefabricated sandwich panel** with colorbonded galvanized steel sheet with special double S-Lock wall joint profile using continuous forming machine to be used in mobile cabin/container and wall partition room.
- * **Fabrication and construction of structural steel works** to the given engineering design and drawing.

Providing
Business Missions

- * Refrigerated chilled and cold storage room construction including controlled atmosphere (CA) storage room and control including CA reefers.
- * Postharvest Technology Consulting Service - Cold Chain concept for handling, transport, storage of fresh fruits, vegetables and flowers for export.
 - Installation of humidified refrigerating system, dehumidified storage room for seed storage and ethylene scrubber,
 - Fumigation container for MBR treatment to stop infestation of insects in grains, fresh fruits and flowers for export.
- * Food processing equipment, process and plant design, fabrication and consulting service

Achieved by S&T Contemp Co., Ltd.

Presented at the Year 2018, Asia - Pacific Service Providers Meeting at Westin Liberation Square Hotel, Chongqing, R.O.C. during 26-27 September 2018

2014 S&T CONTEMP CO., LTD. has received "CareMAX Recognition" from **CARRIER TRANSICOLD** as for **1st Authorized Service Center** in Asia-Pacific region which achieves CareMAX Status for Excellence in Refrigeration Management System covering handling-procurement, testing, storage, decanting, maintenance of refrigerant handling tools and apparatus, and especially training of service technicians in handling virgin refrigerants.

CareMAX program is to help the container shipping industry's cold- cold-chain service and support sector, which was impacted in recent years by issues related to refrigerant contamination and counterfeiting. One of the key program goals is to minimize the opportunity for counterfeit or contaminated refrigerant to enter the service channel as well as covering environment protection and Global Warming concern.
